

CONTENT CARETAKER

WEBSITE PROJECT

Perranporth Community Primary School

Website launched	May 2021
Website address	www.perranporth.cornwall.sch.uk
Project	Create a new school website

In all honesty after working in schools with ICT for the last 25 years, Nick and his team have been a refreshing change from the usual frustrations. I cannot recommend them highly enough!

The new website has been really easy to do with the superb support and guidance from Nick at Content Caretaker. The website was setup for us to edit very quickly, and we were also given access to it early so that we could get everything sorted out.

Whenever I had a question, Nick is always on the other end of a phone or email, always swift with a response. The website itself is very 'clean' and easy to manage, even though to be honest at the start, I wasn't keen on using Wordpress! In all honesty after working in schools with ICT for the last 25 years, Nick and his team have been a refreshing change from the usual frustrations. I cannot recommend them highly enough!
